

SWAG AND APPAREL THAT'S  
**TOUGH ENOUGH**  
FOR YOUR HARD-WORKING NAME

You can buy a cheap key chain with your company logo on it from a lot of places. Actually, you can buy one from us, too. But we've got something those other guys don't have. An affinity for the hard-working folks.

We source gear that can hold its own on a job site as well as you do. The kind of stuff that won't ask for a day off because it's bruised its arm or banged its shin.

Flame-resistant jackets, heavy industrial overalls, hard hats, and gloves are just a few of the things we offer. We've got everything you need, and some stuff you're just going to want.

We're proud to promote items that come complete with innovations like water repellence, wind resistance, and antimicrobial treatment. Plus, we offer tough materials that resist snags, abrasions, and stains.
